Summary title: Petition No 0742/2024 by Tilman Kluge (German) on reviewing the approval of Berlin Brandenburg Airport for compliance with Wildlife Protection Regulations

Petition number: 0742/2024

Topics: Industry and Enterprise, Animal Welfare, Transport, Environment - Protection and Preservation

Country: Germany

Petitioner data

Name: Tilman Kluge

Petition Summary

The petitioner calls on the European Parliament to initiate a review by the 'EU's wildlife protection authorities' to assess whether the approval for the Berlin Brandenburg Airport (BER) complies with EU wildlife protection regulations. The petition specifically raises concerns that the airport's approval does not include provisions for bird protection, particularly regarding the risks posed by the glass facades of passenger terminals, which have led to numerous bird collisions. The petitioner argues that the state of Brandenburg and the Brandenburg Parliament have not taken sufficient action to address or enforce wildlife protection requirements, and the airport's management has not shown adequate efforts to mitigate the problem. The petitioner requests that the European Parliament examine whether the current building regulations and their application violate wildlife protection laws.
